CTSC TL1 PRE AND POST-DOCTORAL TRAINING AWARD
REQUEST FOR APPLICATIONS
APPLICATIONS DUE BY 5PM ON WEDNESDAY, JANUARY 21, 2015

Up to $27,676 per year, per award (Pre-docs)
Up to $64,122 per year, per award (Post-docs)*
*Depending on level of experience

Initial Funding Period: June 1, 2015 – May 31, 2016
Possible 2nd Year Renewal Period: June 1, 2016 – May 31, 2017

The goal of the CTSC TL1 Training Award is to support career development among pre- and early post-doctoral trainees by providing advanced degree training and practical skills to conduct interdisciplinary Clinical & Translational (C/T) Investigation in a team research environment. Trainees, appointed up to two years, receive:

• Stipend coverage at the NIH approved rate
• Funding for supplies and research support including educational expenses
• Funding for travel to present at national conferences and symposia
• Access to resources for conducting C/T research, multi-level mentoring support, and career development

TL1 Trainees pursue research training on a full-time basis, defined by NIH as 40 hours per week (100% time and effort). Appointments are made for 12 months, and no less than 9 months and are renewable for a 2nd year.

INVESTIGATORS FROM ALL DISCIPLINES—BASIC, CLINICAL AND TRANSLATIONAL—ARE WELCOME TO APPLY.
INDIVIDUALS FROM UNDERREPRESENTED GROUPS ARE ENCOURAGED TO APPLY.

CANDIDATES

<table>
<thead>
<tr>
<th>Pre and Post-doctoral MDs</th>
<th>Pre and Post-doctoral PhDs</th>
</tr>
</thead>
<tbody>
<tr>
<td>TL1 awardees that currently hold a medical degree or are medical students -- Enroll in either the one-year Advanced Certificate or the two-year Master’s in C/T Investigation program.</td>
<td>TL1 awardees that are enrolled in or currently hold doctoral-level research degrees (PhD) -- Highly encouraged to enroll in the one-year Advanced Certificate or the two-year Master’s Degree in C/T Investigation Program. All participants must successfully complete a minimum of 3 CTSC courses (selected from the Core or Elective curriculum).</td>
</tr>
</tbody>
</table>

PROGRAM REQUIREMENTS

• **TL1 Trainees** participate in the Clinical & Translational Education Program (CTEP), and take the Tri-Institutional Responsible Conduct of Research course. Click to learn more about CTEP Core and Elective Curriculum.
• A scientific article, with first authorship, submitted to a high-quality scientific journal OR if appropriate, a clinical & translational grant proposal submitted to a federal (i.e., K23, R21, R01, or other NIH funding mechanism) or other funding agency requiring peer-review with the trainee named as Principal Investigator.
• A presentation of the mentored research project at a CTSC monthly seminar, annual research day symposium, grand rounds, or a national/international scientific conference.
