

# American Recovery and Reinvestment Act of 2009 (Recovery Act)

**The American Recovery and Reinvestment Act** contains at least \$110 billion in health care spending, which heralds many positive developments for the scientific community. While general funding levels have been established, agency-specific implementation plans are still in development. RASP will provide the WCMC research community with additional information as it becomes available through email and on [http://www.med.cornell.edu/research/gra\\_con/](http://www.med.cornell.edu/research/gra_con/).
