STATEMENT OF NEED
Evaluations from previous participants in this course indicate a strong interest in gaining knowledge in the field of internal medicine and allied sciences with an emphasis on new developments, mechanisms, concepts, new testing and medications. Practical aspects of the management of patients are emphasized.

Target Audience
Internists, adolescence-pediatricians, geriatricians, family physicians, other primary health care providers, as well as other specialists.

Course Description and Objectives
Weill Cornell CME activities are designed to lead to improved patient care and safety. Upon completion the registrants should be conversant with Modern diagnosis and management of:
1) Congenital heart disease; cardiac imaging
2) Antibiotic associated diarrhea; colorectal cancer, anorectal cancer,
3) Diabetes
4) Back pain, rehabilitation and neurosurgical approaches
5) Lung cancer screening
6) Skin cancer
7) Bone Marrow Transplantation

Associate Professor of Clinical Medicine

Weill Cornell Medical College is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

Weill Cornell Medical College designates this educational activity for a maximum of 16-credits towards the AMA Physician’s Recognition Award. Each physician should claim only those credits that he/she actually spent in the educational activity.

It is the policy of Weill Cornell Medical College to adhere to ACCME Essential Areas, Policies, and Standards for Commercial Support in order to ensure fair balance, independence, objectivity, and scientific rigor in all its sponsored programs. All faculty participating in sponsored programs are expected to disclose to the audience any potential, apparent, or real conflict of interest related to their contribution to the activity, and any discussions of off-label or investigational uses of any commercial products or devices not yet approved in the United States. WCMC CME activities are intended to be evidence-based and free of commercial bias.
