The New York Lipid and Vascular Biology Research Club
 Formerly the New York Lipid Research Club
50th Year

The Rockefeller University
1230 York Ave (& 66th St)
Weiss Building Room 301

Tim Hla, Ph.D. President
Susan Jackson, Secretary
Kie Cundey, Treasurer

Molecular and Cellular Mechanisms of Vascular Pathology
Tuesday, May 20, 2014

2:00 PM
Ira Tabas, MD, PhD
“Defective Inflammation Resolution in Atherosclerosis”
Columbia University Medical Center

2:35 PM
Gabrielle Fredman, PhD
“Resolvin D1 Limits LTB4 by Inhibiting a Calcium-Activated Pathway that Regulates 5-Lipoxygenase Nuclear Localization”
Columbia University Medical Center

3:00 PM
Abigail Haka, PhD
“Macrophage Exophagy Contributes to Foam Cell Formation in Obesity-Associated Inflammation”
Weill Cornell Medical College

(3:25-3:50 coffee break)

3:50 PM
Dianqing Wu, PhD
“Important Roles of the STK24 and CCM3 Complex in Regulating Exocytosis and Balancing Innate Immune Responses”
Yale University School of Medicine

4:25 PM
Barbara Hempstead, MD
“Role of the Pericyte in Ischemia Reperfusion Injury”
Weill Cornell Medical College

5:00 PM
