Weill Cornell Medical College expresses its deep thanks to The Moss Family Foundation and the alumni of Weill Cornell Medical College for its generous support of the White Coat Ceremony.

This includes funding for the coats, a symbol of the medical profession. In 2009, The Moss Family Foundation also established the Paul F. Miskovitz, M.D. '75 Stethoscope Fund for Medical Students as a commitment to the Alumni Association's Stethoscope Initiative. This fund, as well as contributions from individual alumni, helps to underwrite the expense of stethoscopes presented to first year medical students at the White Coat Ceremony each year.
